# MESSAGE FROM THE PRINCIPAL

The Gwynne School Results Report 2008-2009 establishes the goals and priorities for the school. This plan is seen as a working document, subject to additions, changes and improvements as we work through the year. The purpose of this plan is to establish priorities and directives for the school, to provide staff, students, parents and administration with objectives to work towards, and finally, to meet Board and Department requirements. These stakeholders in education play an important role in the focus of schools and must be aware of the direction we are heading. Positive communication with all stakeholders is key. Gwynne School has long been recognized for providing quality education with an emphasis on community involvement. We, at Gwynne, intend to continue this practice. We look forward to dialogue, feedback and continued work with the many stakeholders in public education.

# SCHOOL COUNCIL INVOLVEMENT STATEMENT

The Gwynne School Results Report for 2008-2009 was prepared in consultation with the School Council and parents. The development of school councils has enabled our school community to become more actively involved in the public education process. The Principal, School Staff and the Gwynne School Council have all played a part in the development of this plan. This plan was developed through formal and informal discussions with students, parents and community partners.

# CLASS SIZE REPORT

In October, 2003 Alberta's Commission on Learning recommended the establishment and implementation of province wide guidelines for average class sizes across school jurisdictions. The suggested class sizes were: K – Gr. 3 17 students; Gr. 4 – 6 23 students; Gr. 7 – 9 25 students; and Gr. 10 – 12 27 students. Alberta Education ratified these suggested guidelines and in 2004/2005 began to direct funding towards the accomplishments of these targets. The jurisdiction's 2008-2009 class size report is available at the following link <http://www.wrps.ab.ca/documents/planning-and-reporting-documents>

Notes:

- 1) Student Learning Achievement: PAT Values reported are weighted averages of PAT Acceptable and PAT Excellence results. Courses included: ELA (Grades 3, 6, 9), Math (Grades 3, 6, 9), Science (Grades 6, 9), French Language Arts (Grades 6, 9), Français (Grades 6, 9).
- 2) Student Learning Achievement: Diploma Exam Values reported are averages of Diploma Acceptable and Diploma Excellence results, weighted by the number of students enrolled in each course.
- 3) Overall evaluations can only be calculated if both improvement and achievement evaluations are available.
- 4) Data values have been suppressed where the number of students is less than 6. Suppression is marked with an asterisk (\*).

## Measure Evaluation Reference

### Achievement Evaluation

Achievement evaluation is based upon a comparison of Current Year data to a set of standards which remain consistent over time. The Standards are calculated by taking the 3 year average of baseline data for each measure across all school jurisdictions and calculating the 5th, 25th, 75th and 95th percentiles. Once calculated, these standards remain in place from year to year to allow for consistent planning and evaluation.

The table below shows the range of values defining the 5 achievement evaluation levels for each measure.

Measure	Very Low	Low	Intermediate	High	Very High
Safe and Caring	0.00 - 77.62	77.62 - 81.05	81.05 - 84.50	84.50 - 88.03	88.03 - 100.00

Notes:

- 1) For all measures except Drop Out Rate: The range of values at each evaluation level is interpreted as "greater than or equal to" the "Low" value, and "less than" the "High" value. For the Very High category, values range from greater than the "Low" value to 100%.
- 2) Drop Out Rate measure: As "Drop-out Rate" is inverse to most measures (i.e. Lower values are "better"), the range of values at each evaluation level is interpreted as "greater than" the "Low" value and "less than or equal to" the "High" value. For the Very High category, values range from 0% to less than or equal to the "High" value.

### Improvement Table

For each jurisdiction, improvement evaluation consists of comparing the Current Year result for each measure with the previous three-year average. A chi-square statistical test is used to determine the significance of the improvement. This test takes into account the size of the jurisdiction in the calculation to make improvement evaluation fair across jurisdictions of different sizes.

The table below shows the definition of the 5 improvement evaluation levels based upon the chi-square result.

Evaluation Category	Chi-Square Range
Declined Significantly	3.84 + (current < previous 3-year average)
Declined	1.00 - 3.83 (current < previous 3-year average)
Maintained	less than 1.00
Improved	1.00 - 3.83 (current > previous 3-year average)
Improved Significantly	3.84 + (current > previous 3-year average)

### Overall Evaluation Table

The overall evaluation combines the Achievement Evaluation and the Improvement Evaluation. The table below illustrates how the Achievement and Improvement evaluations are combined to get the overall evaluation.

Improvement	Achievement				
	Very High	High	Intermediate	Low	Very Low
Improved Significantly	Excellent	Good	Good	Good	Acceptable
Improved	Excellent	Good	Good	Acceptable	Issue
Maintained	Excellent	Good	Acceptable	Issue	Concern
Declined	Good	Acceptable	Issue	Issue	Concern
Declined Significantly	Acceptable	Issue	Issue	Concern	Concern

### Category Evaluation

The category evaluation is an average of the Overall Evaluation of the measures that make up the category. For the purpose of the calculation, consider an Overall Evaluation of Excellent to be 2, Good to be 1, Acceptable to be 0, Issue to be -1, and Concern to be -2. The simple average (mean) of these values rounded to the nearest integer produces the Category Evaluation value. This is converted back to a colour using the same scale above (e.g. 2=Excellent, 1=Good, 0=Intermediate, -1=Issue, -2=Concern).

## Goal One: High Quality Learning Opportunities for All

### Comment on Results

Gwynne School has improved steadily over the last several years in this area. Teachers, parents and students are satisfied that the school is providing a safe and caring environment for students.

Instruction continues to be provided to students by school staff, as well as by outside agencies which is specific to these topics. Gwynne School's FSLW provides preventive and responsive services to students. A comprehensive counseling plan (CCP) is developed each year in conjunction with the Annual Education Plan to assist in guiding decisions in areas such as health and wellness for students.

Gwynne Students are offered instruction in all the above mentioned areas. Our students also enjoy the opportunity of learning Spanish. The past three years Gwynne School has been significantly above the Authority and Province and has steadily improved. By maintaining open communication with all stake holders, we will continue to work together in offering strong programming for our students.

Gwynne School has been consistently above the Authority and Province for the past five years. 2009 was Highest percent achieved to date. At Gwynne, we actively search for and make use of research-based data and instructional techniques that will enhance the delivery of programs to our students. We will to continue to work together to maintain this measure with open communication and active parent involvement.

Gwynne School has consistently been above the Authority and Province for the past five years. We are constantly looking at ways to better serve our students. The position of the Learning Support Teacher has made a tremendous difference. This position helps to support all students and their programming and in accessing services from the community. Parents are encouraged to be actively involved. 2009 students and teachers rated this measure extremely high in satisfaction. Unfortunately, there was not enough parent response. Gwynne School will continue working hard in this area.

Gwynne School has done very well over the last five years on this measure. 2008 and 2009 indicated a strong level of satisfaction by both students and teachers. Parents were strong in both 2007 and 2008, but the previous two years and again in 2009 had a lack of response. We will continue to work hard to help our students who are identified as being at risk.

Aggregated PAT results are based upon a weighted average of Acceptable or Excellence percent meeting standards. The weights are the number of students in the cohort for the course.

Student Learning Achievement: PAT Values reported are weighted averages of PAT Acceptable and PAT Excellence results. Courses included: ELA (Grades 3, 6, 9), Math (Grades 3, 6, 9), Science (Grades 6, 9), French Language Arts (Grades 6, 9), Français (Grades 6, 9).

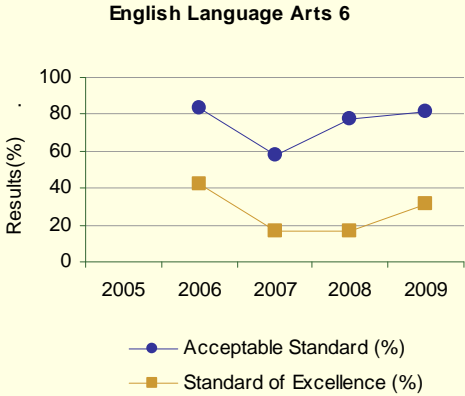

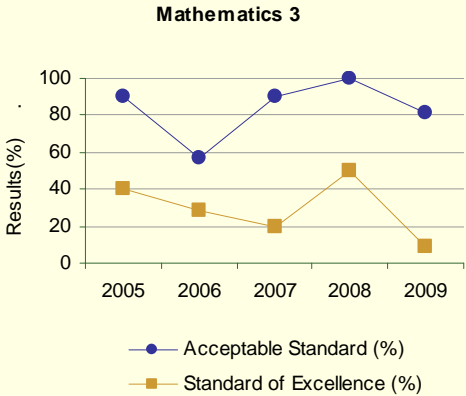

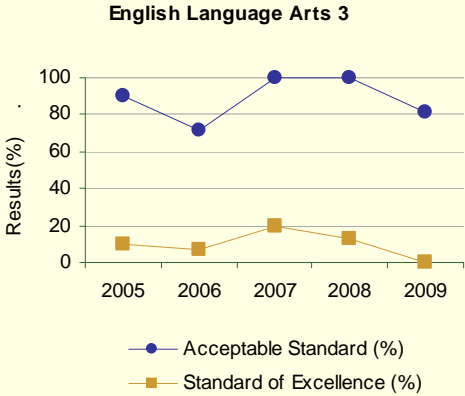

\*\* "A" = Acceptable; "E" = Excellence — the percentages achieving the acceptable standard include the percentages achieving the standard of excellence.

Work skills and attitudes are integrated into lessons whenever possible by all Gwynne teachers, but more so in the Junior High classes. The past several years shows that our teachers along with parents felt that we have been preparing our students to be successful at work.

#### Comment on Results

At Gwynne we offer a number of opportunities for parents to become involved with their child's education. Teachers communicate regularly with parents about their child's progress and parents are encouraged to contact the school. Parents of children with special needs are involved in the I.P.P. process. Gwynne's Learning Support Teacher is actively involved in assisting teachers and families in meeting student's educational needs.

Gwynne School remains consistently above the Authority and Province.  
 As a school, we continually reflect on our practices and accomplishments. As a result, we are able to plan for continuous improvement. The above indicates our attempts have been successful.  
 For the past several years teachers and students have been closely aligned.

2007-2008 results indicated that Gwynne Teacher's were extremely satisfied with professional development and in-servicing received from the school authority. 2009 results show a definite decline in teacher satisfaction. This will be discussed with staff as to what they require to meet their needs for professional growth and will in turn be communicated to District Office
