

## **Contact of Teachers and Homework Guidelines**

### Contact of Teachers

As a point of practice at Gwynne School and in several WRPS sites, we have implemented a set of communication standards. As part of those standards times of communication are addressed. Contacting staff during evening hours via the “Remind” app or another form of communication is fine but the staff member will not be expected to respond to you until the following work day. Thank you for your consideration of staff after-hours time.

### Homework

When asked for homework, staff will supply work for the student and have it ready, if possible, at the end of day or the following morning for pickup. With the demands of the teaching day it is extremely difficult for staff members to have homework immediately prepared on the morning of notification that the child will be absent from school. Thank you for your understanding of this matter.
